

Heavy Duty Rifle Safe

For the Safe Protection of Rifles and Ammunition

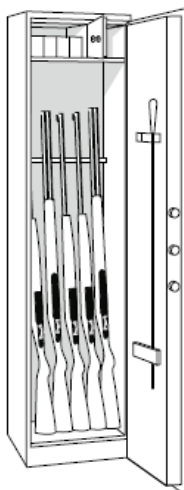

The Heavy Duty Rifle Safe is constructed from high specification materials and can be used to store guns, pistols and ammunition. The Heavy Duty Rifle Safe comes as a 5 gun capacity safe equipped with a gun insert and a lockable compartment as standard.

Key Features

- The safe is equipped with a lockable compartment for the storage of ammunition.
- The compartment is secured by a cylinder key lock and supplied with 2 keys.
- Anchoring points in the base enable the safe to be secured to the floor.
- The single wall body is constructed from 3 mm solid steel plate.
- The 60 mm thick door has a double wall construction and is secured by 3-way moving bolt work.
- All moving bolts are of 25 mm diameter and a fixed dogging bar secures the hinge side of the door.
