

## Omega

### Enhanced Protection for Deposit of Cash and Valuables *Without the Need to Open the Safe*

All organisations today are at risk from opportunist attacks. Omega Deposit Safes can securely hold cash without the need for them to be opened. The safe ideal for retail outlets operating remotely from central areas and in multi-shift or out-of-hours environments where key holders are not always available. Omega Deposit safes mean that large quantities of money do not have to build up in the cash till.

#### Key Features

- Door is made from 10mm steel and body is made from 6mm steel.
- 20mm diameter steel bolts secure the door.
- Door bolts operate in three directions.
- An anti-fishing device prevents deposits from being removed once deposited into the deposit chute.
- Shelf supplied with size 2 model.
- Omega Deposit comes with a double bitted 8-lever key lock, a programmable electronic lock or dual lock key and electronic lock option.
- An anchoring kit is supplied so the safe can be securely base- or rear-fixed, preventing unauthorised removal once installed.
