

Sigma

Allowing Cash and Valuables to be Deposited *Without the Need to Open the Safe*

Suitable for the home and office, The Sigma range is designed to allow cash and valuables to be deposited into a secure environment without the need to open the safe. Sigma comes with two locking options, a key lock or a dual control key and electronic lock and is specially fitted with an anti-fishing device to prevent the unauthorised removal of deposits.

Key Features

- Laser cut door of 6mm plate steel and body constructed of 3mm steel.
- Alpha comes with a dual control key and electronic lock.
- An anti-fishing device prevents deposits from being removed once deposited.
- 25mm diameter steel horizontal operating bolts secure the door.
- An anchoring kit is supplied so the safe can be securely base or rear fixed to resist unauthorised removal once installed.
